Teach from wherever **you want**

Easy and unlimited recordings

Without special equipment of any kind, teachers and students can make **recordings directly from the mobile**, with integrated webcams or even with professional cameras.

Manage classes intuitively

Nuvolclass has an exclusive '**Drag&Drop**' system that allows students to be managed visually and intuitively. You will be able to have your **work groups** organized during all the time that your classes are extended.

Organize courses, content and ideas

Quickly create courses with a start date. Assign activities or assessments with all kinds of **audiovisual content and comments**. Evaluate the activities of your students, leaving markers with comments.

Accessibility

Nuvolclass incorporates a **QR authentication system** that allows the user to connect temporarily from a public computer using exclusively their mobile device.

Sign language

Soroll has extensive experience in products for learning sign language. **Nuvolclass** is a product adapted to multiple needs and follows standards such as **WCAG** and **ARIA**.

Security and privacy

All **information, video, audio** or any other data generated by the user, is always sent encrypted.

NUVOLCLASS ENHANCES TEACHER-STUDENT ENGAGEMENT BY PROVIDING QUICK AND EFFECTIVE FEEDBACK ON PREPARED ACTIVITIES OR REMOTE LIVE CLASSES.

nuvolclass

The teacher can integrate **any multimedia material in the courses**, such as **videos, audios and images**. Students can carry out activities **individually or in groups**, register with their webcam and later review the comments of the tutor.

Discover how **Nuvolclass** offers specific **online tools to improve linguistic**, technological and **comprehension skills** while allowing you to practice interpersonal skills and attitudes through **audio and video commentary, teamwork** and **critical thinking**.
